

FAQs

Questions Frequently Asked by Donors

01 How does the program work?

You may complete the online donation form or call the donation line to donate your vehicle. When the information is complete, it is forwarded to the tow company. You will receive a confirmation letter by email or mail. The tow company will call you directly to schedule the pick up. At the time of pick up, you will need to give your appropriately signed title and keys to the driver.

02 As a donor, what do I need before I can donate?

Three things are needed.

- A clear title, which means a title with your name listed as the owner on the front of the title, without an assignment or transferred to another person. All liens must be released prior to donating the vehicle.
- Your car keys.
- When you call or fill out our online form you must have the title and current mileage in hand.

03 Do I pay for the towing?

No, there is no charge to you for the towing.

04 How long will I have to wait before my vehicle is picked up?

Typically, your vehicle will be picked up in 2-4 business days. The towing company will contact you within 24-48 business hours from the time we set up your donation.

05 Will I receive a tax deduction for my donation?

The IRS allows you to claim a tax deduction of:

- The value of your vehicle up to \$500 if sold for less than \$500
- The amount we sell your vehicle if sold for more than \$500

Please consult a tax advisor to determine your tax benefit.

06 What do you do with the vehicles?

The vehicles are taken to an auction and sold to the highest bidder.

07 Where do the proceeds go?

100% of the net proceeds are distributed to Non-profits; the majority going to the organization designated by the donor.

08 What is the tax benefit amount for me to donate my vehicle?

Please visit the [IRS website](#) for more information.
